

Web Connect is a built-in solution to upload scanned documents to or print documents directly from an online storage site using your compatible Brother device¹.

Access the cloud without a computer for the following services:

Google Drive™

Dropbox /
Dropbox
Business

Box / Box
Business

OneDrive

OneDrive / OneDrive Business

Evernote

Evernote® /
Evernote® Business

OneNote

Convenient Built-in Feature

Connect directly to an online account without a computer¹. Plus, you can add a PIN to restrict user access.

Access, Scan, Print

Scan a document or image directly to your account, or upload from your USB memory stick. Also print documents directly from the site.

File Formats: Scan to PDF, searchable PDF, Word, Excel, PowerPoint (see **Brother Cloud Apps**), and other popular file formats.

The **MFC-L6900DW** monochrome laser MFP offers access to popular cloud services directly from the touchscreen display via **Web Connect**. Scan documents to and print documents from the desired service.

Set up Brother Web Connect in four easy steps:

- 1** Create an account with the desired service (*go to step 2 if you already have an account*).
- 2** Apply for Web Connect access via a one-time process to obtain a temporary ID using a computer.
- 3** Enter the temporary ID on the Brother device to enable access. Specify the account name as you would like it to be displayed on the machine, and a PIN code if desired.
- 4** The Brother device now has access to the registered service.

Brother Cloud Apps offers a built-in suite of innovative, cloud-based applications accessed directly from your compatible Brother device². Capture and convert information directly from your machine – without using a computer.

Scan to Searchable PDF

Scan a single- or multi-page hard copy document and convert it into a searchable PDF using Optical Character Recognition (OCR)².

Scan to Word

Scan to Excel

Scan to PowerPoint

Scan a hard copy document into an editable text document with individual image elements in Microsoft Word, Excel, and PowerPoint formats. No conversion software or computer required.

The **MFC-L9570CDW** color laser MFP offers access to **Brother Cloud Apps** directly from the device.
USB memory stick not included.

Easy Scan to Email enables you to send documents from the Brother device to a prepopulated email address without configuring any server details².

Scan to Mobile enables you to retrieve a scanned document on a mobile device by scanning a QR code link on the front panel of a Brother machine³.

Cloud Secure Print enables password-protected printing over the Internet without using a printer driver².

Attach, Email and Print enables printing via email over the Internet without using a printer driver².

Fax Forward to Cloud or Email automatically forwards incoming faxes to a defined cloud service or email address⁴.

1 Requires an Internet connection and an account with desired service.
2 Requires an Internet connection.
3 Requires an Internet connection and a QR code app on the mobile device.

4 Requires Internet connection. Fax Forward to Cloud requires an account with the desired cloud service.
